

# The digital COVID certificate

Published: 07.06.2021.

Digital COVID certificate website [www.covid19sertifikats.lv](http://www.covid19sertifikats.lv) provides people with access to their digital COVID certificates. Currently, the following types of the Digital COVID Certificate are available: certificate of vaccination against COVID; certificate of the results of COVID laboratory analysis; certificate of the fact of having been previously infected with COVID.

To view your Digital COVID Certificate, you have to: click the button "View my certificates" on the website [www.covid19sertifikats.lv](http://www.covid19sertifikats.lv); authenticate with any of the means of secure access (Internet banking, eID Card, mobile ID); request your certificates in the system and then you can view or save them (on a computer, smart device).

Types of certificates and their use

Validity of the vaccination certificate

Validity of vaccination certificates in the European Union
